Vimkubectl

Managing Kubernetes resources from Vim

saud

Software Engineer @ Red Hat

Likes using Vim and Kubernetes

website: https://saud.wtf

Reducing friction

Interacting with kubernetes

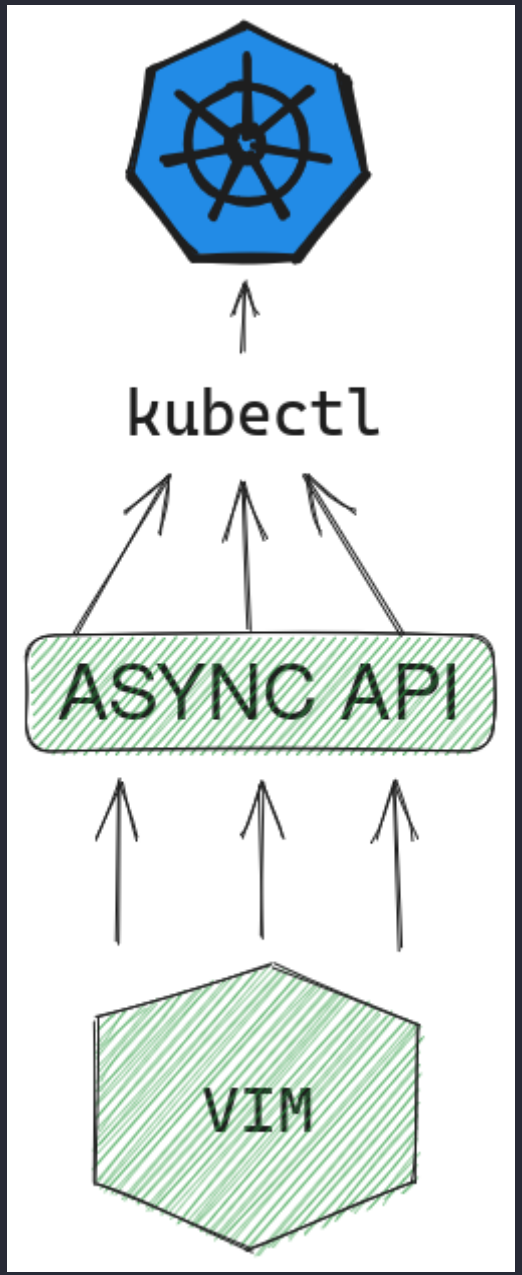
`kubectl`

CRUD operations

Editing!

Must have

- Multi pane workflow
- asynchronous



kubectl
ASYNC API
VIM

Demo

`:Kget`

- Improved `kubectl get`

:K

- Run arbitrary `kubectl` commands

`:Kedit`

- Edit resource manifests

:Kns

- Switch namespaces

`:Kapply`

- Improved `kubectl apply`

Thank you!
